THE P. B.

(New Orleans Picayune.)

Roll up your sleeves now, boys, take a very long breath and see if you can jump over these two words, "Po-go-no-myr-mex Bar-ba-tus," for this item is going to tell about the pogonomyrmex baratus. Indeed, the P. B. is no more nor less than the farmer ant of Texas, or an ant that is about as big as your father's thumb-nail. The Rev. Dr. H. C. McCook, of this city, has written a book about this ant, but what follows is taken from an account printed by Dr. Hale, of Chicago, who went to Texas just to see the ants, some two weeks ago.

The farmer ants have a million cities in Texas. They build a city under ground. with streets, houses and public halls. The city is entered by two gates on the surface of the ground. Around these gates lie their farms and plantations. They cut down all the grass, except certain kinds which bear the seeds that they live on, and so make a "clearing," just as a farmer does when he cuts down trees. The jaw of the major ant, or best worker, is as sharp as a knife, and with the help of a minor ant, or boy worker, a farm about eight feet square is cut, The queen ant does nothing but attend to the children. The male ant or drone is the lazy bones and struts around the street corners. Thus there are four kinds of ants in every family. They have regular roads through the farms. The roads are but two inches wide. They have granaries. and when the seeds are ripe, fill the granaries with seed for use in cold weather. They are great fighters, and a dozen can soon kill a wasp. They clean themselves after eating, take good care of the sick and carefully bury their dead. It is not certain whether they have schools or not, but it is likely that they do.

EMPLOYMENT.—The following sentiment was uttered by Daniel Webster in a speech in the Senate of the United States.

"Sir, I say it is employment that makes the people happy. Sir, the great truth ought never to be forgotten; it ought to be placed on the title-page of every book on political economy intended for America, and such countries as America. It ought to be placed in every farmer's magazine and mechanic's magazine. It should be proclaimed everywhere, notwithstanding what we hear of the usefulness—and I admit the high usefulness of cheap food—notwithstanding that, the great truth should be proclaimed everywhere, should be made into a proverb if it could—that where there is work for the hands and brain, there will be work for the teeth. Where there is employment there will be bread. And in a country like our own, above all others, will this truth hold good—a country like ours, where, with a great deal of spirit and activity among the masses, if they can find employment, there is always great willingness for labor. If they can obtain fair compensation for their labor, they will have good houses, good clothing, good food, and the means of educating their families; and if they have good houses, and good clothing and good food, and means of educating their children from their labor, that labor will be cheerful, and they will be contented and happy people,

THE HANDS.—In order to preserve the hands soft and white, they should always be washed in warm water, with fine soap, and carefully dried with a moderately coarse towel, being well rubbed every time to insure a brisk circulation, than which nothing can be more effectual in promoting a transparent and soft surface. If engaged in any accidental pursuit which may hurt the color of the hands, or if they have been exposed to the sun, a little lemon juice will restore their whiteness for the time; and lemon soap is proper to wash them with. Almond paste is of essential service in preserving the delicacy of the hands. The following is a serviceable pomade for rubbing the hands on retireing to rest: Take two ounces of sweet almonds; beat with three drachms of white wax, and three drachms of spermaceti; put up carefully in rose water. Gloves should always be worn on exposure to the atmosphere, and are graceful at all times for a lady in the house, except at meals.

KEEP CONFIDENCE.—To the honorable mind there is but one imperative law concerning secrets. We must regard every matter as an intrusted secret, which we believe the person concerned would wish to be considered as such. May, further still, we must consider all circumstances as secrets intrusted, which would bring scandal upon another if told, and which it is not our certain duty to discuss, and that in our own persons and to his face.

It is so in politics, business everywhere else in life. The man whom you boost up the tree not only forgets to toss you down some of the fruit, but is as likely as not to pelt you with the chawings.

Another American girl is to marry a nobleman. Why is it that our girls refuse to support their own countrymen? There is a lack of patriotism somewhere.

Not until we know all that God knows can we estimate to the full the power and the sacredness of some one life which may seem the humblest in the world.

Many a sweetly formed mouth has been disfigured and made hideous by the fiery tongue within it.

Make yourself necessary and your success is certain.

WASHINGTON LETTER.

WASHINGTON, D. C., Jan.. 19th, 1880

Although it is now apparent that the Republican party is strong enough to feel a reasonable confidence in success the coming campaign, yet caution is a good element in political management, and harmonious work are necessary to foil the atrocious intrigues and frauds of men such as they who have failed, in their effort to overturn popular government in Maine. I write this because there seems to all thinking men some danger in the two early forcing of Presidential candidates into the field. Our accounts from Pennsylvania and New York do not encourage confidence in good feeling. It is now in some parts of the former State we hear of very bitter strife between the friends of General Grant and other candidates because of the early calling of the State Convention to send delegates to Chicago. It would be better to postpone the controversies as late as possible than to injure our cause by too great haste. This is the feeling of all Republicans who have the good of the party at heart, rather than anybody's "boom."

The failure of the latest Democratic blunder, the conspiracy in Maine, has greatly disheartened the Bourbons, who really had hopes of stealing the electoral votes of that good Republican State. They threaten to have their managers in that State appeal to Congress for redress, and that is what we are hoping for. What a grand opportunity that would give Senator Blaine, and Mr. Frye to expose the atrocious infamy of that plot to subvert popular government; it would furnish us some good campaign literature for the ensuing campaign. Senator Blaine is expected here this week, and will be ready to meet anything of that sort with the ability and adroitness he has exhibited in the management of the case at home.

The Democrats have always made a good deal of talk about nepotism in office, and have indulged in a great amount of raillery because the Administration provides its relatinsowith places. Look at the Democratic picture, the Democrats have only a small part of government patronage, but in proportion their nepotism is startling. Eleven Democratic Senators have placed their sons in comfortable positions as Clerks of Senate Committee. Should we be so unfortunate as to have a Democratic administration judging from this exhibit, where would this nepotism end?

Another company of colored people has just passed through here from North Carolina, and 500 will follow them next week. The exodus is booming, and yet I do not learn that Voorhees is anxious to inquire of these fugitives from oppression why they leave their old homes for strange places.

Commissioner Raun, is the subject of the Democratic assault just now, for his plain expressions about the lawlessness in the South, and the difficulty of enforcing the revenue laws there.

MAXWELL.

A BAD BILL.

A bill is now pending in our Legislature, providing for an appropriation of $150,000, more or less, to pay the members of the Constitutional Convention for the extra time they were in session, over and above the time allotted them by the law calling said convention. The members of that Convention knew before they were elected the amount they were to be paid per diem for their services, and how many days they were required to work, and the period allotted them to enact a new Constitution was sufficient for the work in hand; but it is well known to every man, woman and child in the State capable of reading the English language that the time of the session was completely frittered away by its members in making buncombe speeches, as nearly every member was an expectant candidate for a State office, or the Legislature, under its provisions. The subject of extra pay was well considered by the press, throughout the State, and the subject matter was condemned by all the respectable and influential journals. If the extra pay could go only to the ones who favored an early adjournment, and bent their energies to that end, it would not be so objectionable a bill, but that cannot be. A large number—but a minority, unfortunately—of the Convention wanted to adjourn when the time allowed by law had expired, but their wishes were overruled by an impecunious set who thought they would try to worm a few more dollars out of the State Treasury, as it would probably be the last opportunity they would have. We are well satisfied that the best men of that Convention are now opposed to this bill, and among this number, although we have said nothing to him about it, we think we can place the Hon. P. Reddy, the able representative of Mono and Inyo counties in that body.

Mr. Reddy opposed the adoption of the new Constitution, and his opposition did much toward carrying this county against it. We know that the people are opposed to the passage of this bill, and we have every faith in our able representative Hon. Jo. Wasson, that it will never become a law through his vote. Let it be defeated.

DEMAGOGISM.

A bill has been introduced in the Legislature to exempt from taxation homesteads to the amount of $5,000. This looks to us like demagogism, as no man of common sense would introduce a bill of this character with the expectation of seeing it become a law and meet the approval of the people of this State. An exemption of $1,000 worth of property belonging to widows would be reasonable and just, but no man owning a homestead worth the nice sum of $5,000 should be exempt from paying his portion of governmental expenses. Such men are the ones that should pay taxes and if there is to be any exemption let it be the poor man who has to delve from morning till night to earn enough to support himself and family—the men who now pay their taxes, if it takes every cent they have, while the $5,000 chap shirks out of paying his quota as long as he can. We hope no such act will become a law of this State. A glance at the proceedings of the Legislature will show that we have too much demagogism in that branch of our government for the good of the commonwealth.

THE CHRONICLE.

BODIE, JANUARY 31, 1880.

County Official Press.

The CHRONICLE Office is on the second floor of "Goodson's Building," east side of Main street, between Standard Avenue and Green street.

JOB PRINTING.—Job printing of the finest description will be furnished at this office at Sacramento prices.

LOCAL INTELLIGENCE.

IT PAYS.—"We know men here who, in order to save a dollar, will send to San Francisco for bill heads, cards, etc., and then hug themselves with the delusion that they have made money."

Thus sayeth the News. There is no "delusion" when orders are given to us. We are daily favored with orders for job printing. Our customers know that we send below for execution, and they receive good work at less prices. Instead of paying our cotemporaries "big prices," they allow us to make a reasonable profit and help a deserving paper; a journal that concedes the right of all to trade where they think proper. There is no whine or begging found in our columns. We know our own business and so do those who deal with us. If the WEEKLY CHRONICLE worries our neighbor what will become of it when we compete, side by side, as a daily? We ask nothing from the people of Bodie on the score of charity. If they don't want to advertise with us or subscribe, we shall find no fault.

"Give us a show to compete with San Francisco prices allowing the same margin of profit demanded by yourselves, and our word for it, such a course will enable us to publish a better paper and be freed from many inconveniences under which all newspapers now labor."

Why say "all newspapers." A paper that "pays and goes," has no fears of the future. The trouble comes in when power presses, steam engines type and stock are bought on credit, secured by mortgage, at high rates of interest. Hold fast to the hand press and pay as you go, and escape the "many inconveniences" which center around the "paper with the largest circulation in Mono county" is safe and sure. We find it so.

WAITING.—"The Bodie papers are waiting for each other to die:" So says the Virginia Enterprise. That's so! On the 1st day of March next the BODIE CHRONICLE will be issued as a morning paper. This will give Bodie four dailies, one evening and three morning. That all the mornings will live is not to be expected. The people of Bodie evidently tire at this continual drain for the support of papers. Under the circumstances they will patronize those worthy of support, and on that basis we shall enter the field with no misgivings as to the result.

THE POLICE.—Our dailies are wrestling with the police, which department of our town economy does not seem to be in very good repute just now. If all, or even half is true, of what is said of our officers, there ought to be a change, and the ones who pay them are the parties who should act in the premises and see that none but good men are put on guard—not men who are looked upon by the people as so many scallawags, and it cannot be denied that some of them are so looked at.

TAX SALES.—On our fourth page will be found the advertisement of the delinquent tax sales, which will be very interesting matter for our readers. This is the heaviest delinquent list ever published in this county, but it must be expected that the delinquency in the payment of taxes will increase with the increase of business and population of the county.

GRAND CONCERT.—A grand vocal and instrumental concert will be given at Miners' Union Hall on Friday evening, February 6th, under the direction of Prof. A. P——trone, who will be assisted by some thirty of our leading citizens, ladies and gentlemen, comprising the best musical talent of our city. It will undoubtedly be a fine affair and merit a crowded house.

GOOD.—The late fall of snow has made the sleighing very good this week, and the merry jingle of the bells can be heard in every quarter, day and night. Owing to the long continued sleighing carnival the Winter has been passing pleasantly and the opening of Spring with its winds and dust will not be welcomed so joyously as it might be under a less favorable state of affairs.

GOVERNOR'S RECEPTION.—Governor Perkins will accept thanks for the following;

Governor and Mrs. Geo. C. Perkins
will hold a
Public Reception,
at the Pavilion, Sacramento,
Friday Evening, Feb'y 6th, 1880.
Yourself and ladies are cordially invited.

PERSONAL.—On Wednesday we had a pleasant call from C. K. Dunlap, city editor of the San Jose Mercury, and correspondent of the S. F. Chronicle and Post. Mr. Dunlap will tarry among us a few days, the guest of his father-in-law, Dr. Davison.

THANKS.—We are under obligations to our friends of the Standard and Free Press for favors extended the CHRONICLE this week, and assure them that we will be pleased to reciprocate at any and all times.

BOARD OF SUPERVISORS.—The Board of Supervisors will meet in regular session on Monday next. It will be of unusual interest.

PUB. DOC.—Hon. Jo Wasson will accept thanks for copies of Legislative bills forwarded to this office.

ELLA SAID, Principal.

"TOO TRUE!"—We find the following in the Bodie News:

"The Bodie News power-press works off 1,500 copies an hour. In one hour the work is now done with one man that formerly required two men and nine hours work with the lever press."

The working of a power-press is as true an index of its performance as the beating of the pulse. We cite how the Sacramento Union refuted the brag of the Democratic State Journal and, in doing so, say that our cotemporary having a big brag about its circulation, the count of its next issue was timed by its press revolutions and the exposure refuted what it had to say about its circulation. The publishers of the Union stationed two men across the street opposite the Journal's office, and timed the workings of its Adam's press, which was on the first floor, front room. The next day the Union announced the count. The Journal folks then arranged for a count of the Union press, and the point of observation was Zwicker's saloon. The Union was posted, and that morning the press was worked two hours on a waste sheet. The Journal subsided, and we advise our cotemporary to do the same.

MEAT MARKET.—Although cattle and sheep have advanced in prices full 37 per cent., yet our butchers have only advanced 25 per cent. At the City, Central, Union and Standard Markets, the prices are as follows: Sides, fore quarters, buttnuts and chucks, 10 cents per lb; hind quarters round and chuck steaks, 15; loins, untrimmed, prime ribs, long, 20; prime ribs, short any portion of loin, 25; boiling and corned beef, less than 100 lbs. 12½; 100 lbs or over 10 cents. Mutton—by the side and forequarters, 12½; legs or hind quarters, 15; chops, 20; stew, 12½; loin, whole, and roast, 20; entlets 25. Pork, 20, sausage and head cheese 20.

BODIE TOWNSITE.—Commissioner Williamson having rejected the survey, Secretary Schurz dismissed the objection to the methods of executing the Glover survey as "technical," and holds that it is "substantially correct." He also decided that there was sufficient authority of law for it to be made, and he therefore reverses the Commissioner's decision and directs the Glover survey to be "returned to the proper file in the General Land Office, and in the local land office of the district in which the township is situated."

RUNAWAY.—This afternoon while coming down hill from Rosenthal's, the team of Love & Hudson ran away and threw P. K. Love out, inflicting a number of bruises, but breaking no bones. The team came into town and on Main street wrecked the sleigh.

READING MATTER.—Five columns of new advertisements is our apology for lack of reading matter this week.

FIRE.—A fire occurred at the Con. Pacific Hoisting Works, this afternoon at four o'clock, but the damage was slight.

The Supreme Court has decided that under the Constitution all bills before the Legislature must be read at length three times before final passage, unless two-thirds of the house in which the bill is pending vote to dispense with this provision. There will be no trouble in getting the two-third vote on most bills.

General Grant said to John Russel Young: "Mr. Blaine would make a good President. He is a very able man, and I think a perfectly honest man, fit for any place."

So say we all.

FINE CONFECTIONARY.—Mrs. Swan has opened a confectionary store in Abbot's building, on Main street, between Standard Avenue and Mill street. She intends to keep a fresh supply at all times and at reasonable prices.

The potato crop of the United States for 1879 equaled the gold and silver product. Talk about bullion, will you? It stands side by side with potatoes.

The Russian newspapers are discussing the probability of a necessity arising for the importation of American grains into Russia next Spring.

On Tuesday last, the first time in fourteen years, snow fell in Los Angeles and remained in the door yards some six hours.

STOCK BOARDS.—The following bill has been introduced in the Assembly by Mr. Gorley:

Section 1. All purchase and sale of shares in any incorporated company, under the laws of this or any other State, in any Stock Board, Mining Exchange, or Auction Mart in this State, is hereby prohibited, other than in manner herein prescribed; and every violation of this Act is declared to be a felony, except as hereinafter prescribed, and upon conviction, in any Court of competent jurisdiction, shall subject the offender to a fine of not less than one thousand dollars, and imprisonment in the State Prison not less than six nor more than twelve months, at the discretion of the Court.

Sec. 2. All sham or wash sales, and all sales where there is no money, or where there is less than a full money consideration paid, accompanied by a surrender of the stock or shares bought and sold' are hereby prohibited.

Sec. 3. It is hereby made incumbent upon all stockbrokers to furnish their customers within forty-eight hours (Sundays and legal holidays only excepted), after making such sale or purchase, a written or printed list of the stock or shares sold or purchased for such customer, specifying the session of th Stock Board at which such sale or purchase was made, stating the true purchase or sale price, and also the number of the cetificate of the stock sold or purchased.

Sec. 4. Brokers are hereby prohibited from using, loaning, hypothecating, or selling any stock on hand belonging in whole or in part to a customer; but they shall hold all stocks that may come into their hands, belonging in whole or in part to their customers inviolate. and shall at any time, upon demand, and upon payment of all arrearages upon the same, deliver up the identical stock purchased for him, and none other.

Sec. 5. The Secretary or Clerk of every Stock Board, Stock Exchange, and Auction Mart, shall keep a correct list of all stock transactions in his Board, Exchange or Mart, showing the names of the seller and purchaser, the number of shares, and the price at which the same was sold and purchased; and this record so kept shall be open to inspection during usual business hours to any and every person having stocks bought or sold in such Board, Exchange, or Mart. And it is hereby made the imperative duty of such Secretary or Clerk to furnish to such customer or customers, upon demand and upon payment of the Notary's fee therefor, a sworn statement of the transactions of any session or sessions of said Board, Exchange, or Mart, and upon failure to furnish such sworn statement such Secretary or Clerk shall be deemed guilty of a misdemeanor, and upon conviction shall be subject to a fine of not less than one hundred nor more than one thousand dollars, and shall be imprisoned until such fine is paid or satisfied.

Sec. 6. One-half of all fines collected, under the provisions of this Act, shall be paid to the party aggrieved, and the balance shall be paid into the treasury to the credit of the Common School Fund of the State.

Sec. 7. All Acts and parts of Acts in contravention of the provisions of this Act are hereby repealed.

Sec. 8. This Act shall take effect and be in force thirty days after its passage.

The New York Sun says of the American Union Telegraph Company. The fact that Jay Gould, who fought the Western Union Company with the Atlantic and Pacific Company, until he traded it off to that Company, is the moving spirit in the present Company, has suggested the belief in Wall street that this present enterprise was undertaken for the same purpose, namely; to sell out.

At New York Denis Kearney thus spoke of Tilden:

That political devil-fish with false teeth, false wig, false heart, or rather false gizzard, for he has no heart; that fraud, election fraud, cipher fraud, fraud of all frauds, Sam Tilden, sits in his office like a great spider, with suckers out all over the continent.

FOR THE DAILY BODIE CHRONICLE,

TO BE ISSUED MONDAY,

MARCH FIRST.

THE BODIE MINES.

MCCLINTOCK.
Russell F. Lord, Supt.

The south drift from the east crosscut at the new shaft has been extended to a distance of 67 feet, at which point a crosscut has been run west 5 feet, reaching the west wall; and a crosscut has been run east 22 feet, with the face still in the ledge. This crosscut will be continued to the east wall, striking it at a point about 77 feet southerly of the main, crosscut, which will pretty well define the course and direction of the ledge, so as to govern the direction to run for the ore body on the lower levels. On the 500 level from the north drift, 200 feet from the shaft the west crosscut has reached a distance of 28 feet, with no particular change to note. On the 675 level the north drift is in 82 feet. The ledge is widening and looks well. On the same level the east crosscut is in 77 feet, with bunches of quartz in the face, having during the past week passed through a fine strata of quartz. The ledge struck on the upper levels is not far off. Everything in and around the mine is working well.

SOUTH BULWER.
John C. Turner, Supt.

The shaft is down 478 feet, the ground working well and insuring good progress. A few days since a heavy flow of water was encountered which delayed work some, but the pumps are handling it easily and no more trouble is apprehended. Work in winze No. 1 on 350-foot level, on account of increase of water in the bottom, was suspended, but will be resumed as soon as the main shaft has reached a sufficient depth to drain it. The machinery for the air compressor has arrived and will be put in position at once. Everything about the mine is in good shape and working well.

MARYLAND CON.

Work in this mine, since last report, has been, above and below ground, vigorously pushed, 4 feet per day having been made in sinking new double compartment shaft, which has now attained a depth of 457 feet. The whole bottom of shaft is in vein formation. The drifts in the upper levels are still in good ore. Crosscutting on 500 ft level will soon take place for the Maryland and Berdie Hyde ledges. These ledges are expected to contain large bodies of ore.

QUEEN BEE.
J. C. Turner Supt.

The north drift from the east crosscut on 400 foot level is in 40 feet, the ledge being 6 feet wide of a good character of ore the whole length of the drift, and is improving steadily as progress is made. The indications are that a large body of ore will be opened on this level. The ore is of a decomposed character and easily worked.

SOUTH NOONDAY.
J. C. Turner, Supt.

The shaft is down 136 feet, securely timbered from the surface to the bottom. The formation is looking very favorable and works well. During the past week a whim has been erected over the shaft, which will expedite the work of sinking.

The last game of base ball was of unusual interest, the clubs being evenly matched and without exception each of the players did his level best. Every man of them was in first rate condition, The increased sale of the celebrated tonic and invigorator Frese's Hamburg Tea, readily accounts for it.

RELIGIOUS.—Rev. G. B. Hinkle will hold divine services in Odd Fellows' Hall, over Page, Wheaton & Co's store, to-morrow a 11 o'clock A. M. and 7 o'clock P. M. Sabbath School at 2 P. M. All are cordially invited to attend.

DR. SPINNEY
No. 11 Kearny Street,
SAN FRANCISCO.
Treats all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with the frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient can not account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

OFFICE HOURS—10 to 4 and 6 to 8. Sunday from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5.
